All-Season Pass

At any time of year, Whistler has a vibe that's more metro than mountain.

By Amanda Ross

Whistler, Canada, routinely conjures up dreams of epic powder, but this world-famous ski destination is a year-round attraction. As the weather warms up, down coats are swapped for T-shirts, hot cocoa for cool cocktails and the mountain runs transform into hiking trails with breathtaking views of the area's evergreen forests and azure lakes. And now, thanks to a vision for Whistler village that's more chic than quaint, both visitors and locals can look forward to fine dining, design and art every day of the year.

BEST FOR

Cool Camping

No need to rough it while in the great outdoors. On the outskirts of Whistler Village sits the new Camp Lifestyle & Coffee Co., a concrete-cool shop “for the sustainable camper” (and stylish lumberjacks) that includes a café (Camp Grounds) and a design space (Camp Home) with Canadian-made goods like Woodlot candles and Loyal Loot log bowls, as well as an outdoor area (Camp Site) offering a fireside spot for making s'mores.
